II.A. Uses of Education Stabilization funds by LEAs

Provide a concise narrative of how LEAs in your state have generally used Education Stabilization funds, and the impact that the funds had on elementary and secondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

The Stabilization funds were used in the areas of Instruction (56%) and Support Services (44%). In the Instructional area, 79% of the expenditures were for regular instruction, 6% for Special Education Programs, 9% for Other Instructional Programs such as after school programs, alternative school programs and co-curricular activities. The balance of the expenditures were spent in Career and Technical Education Programs and Special Programs. In the area of Support Services, roughly 60% of the funds were spent in the areas of Pupil Support Services, Instructional Staff Services, and School Administration. The receipt of these funds enabled local educational agencies to continue educational funding primarily in classroom instruction and pupil support areas thereby avoiding disruption of critical services to students.

Please update for the new timeframe:

The State Fiscal Stabilization Fund distribution formula required all Education Stabilization Funds available for Fiscal Year 2010-2011 be distributed to Institutes of Higher Education. Education Stabilization Funds distributed to Local Educational Agencies for Fiscal Year 2010-2011 is \$0.

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of LEAs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	\$0.00
Contracts for construction, modernization, renovation, or repair projects:	\$0.00
Other:	\$0.00
Total:	\$0.00

II.B. Uses of Education Stabilization funds by public IHEs

Provide a concise narrative of how public IHEs in your State have generally used Education Stabilization funds, and the impact that the funds have had on postsecondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

The Stabilization funds were used in the areas of Personnel Services (61%) and Student Financial Assistance (39%) to build a bridge for the State to weather the economic downturn it and the nation had been experiencing. Higher Education is a major priority of the State, yet a major user of the State's limited resources. The Stabilization funds prevented deep reductions to higher education teachers, faculty, and programs.

Please update for the new timeframe:

For the new reporting period, the Education Stabilization funds were used in the areas of Personnel Services (79%) and Student Financial Assistance

(21%). There are no other significant or material changes in the uses of the funds from the prior reporting period.

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of public IHEs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	\$212,371,997.00
Student financial assistance:	\$57,012,867.00
Contracts for modernization, renovation, or repair projects:	\$0.00
Other:	\$0.00
Total:	\$269,384,864.00

II.C. Uses of Government Services funds by entities

Provide a concise narrative of how entities in your State (including State agencies) have generally used Government Services funds, and how the funds have affected the State's provision of services from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

ARRA-SFSF funding has maintained vital general government services, including fiscal control activities such as statewide cash management and banking, constitutional, and statutory fund accounting; the integrity of the electoral and election management process in Louisiana for its voters, citizens and for other interested parties in Louisiana and the United States; maintain voting machine equipment; ensuring the state's compliance with the National Voter Registration Act, preparation and certification of ballots for all elections, promulgation of all election returns, and administration of the election laws, including those relating to voter registration and custody or voting machines; and investigating reports of improper election activity to address voter fraud and illegal election activity; enforcement/regulatory of agricultural activities such as animal health services; cultural and tourism activities to promote economic growth; and public safety and law enforcement.

Please update for the new timeframe:

There are no significant or material changes in the uses of the funds from the prior reporting period.

Estimate the total amount of Government Services funds that the State has drawn down on behalf of its subrecipients, from October 1, 2010 to September 30, 2011, under the following categories:

Elementary and secondary education (excluding construction, modernization, renovation, or repair of public school facilities):	\$0.00
Construction, modernization, renovation, or repair of public school facilities:	\$0.00
Modernization, renovation, or repair of public IHE facilities:	\$0.00
Public IHEs (excluding modernization, renovation, or repair of public IHE facilities):	\$0.00
Public safety:	\$5,278,581.00
Public assistance:	\$0.00
Transportation:	\$0.00
Other:	\$48,967,622.00
Total:	\$54,246,203.00

III.A. & B. Tuition and Fees

Describe any actions taken by the State to limit increases in tuition and fees imposed by public IHEs for in-State students:

Entry from previous timeframe:

Louisiana had passed tuition increases before the stimulus bill was passed by Congress. Those increases are reflected in the data provided. Louisiana also recognizes that the stimulus is ending and is currently discussing various higher education reforms, some of which would include additional tuition increases.

Please update for the new timeframe:

Louisiana passed reforms granting greater autonomy to higher education institutions, including greater flexibility to raise tuition, in exchange for meeting performance measures. However, even with the tuition increases, tuition in the Louisiana higher educational systems remain some of the lowest in the southern region.

For each 2- or 4-year public IHE, please provide the tuition and mandatory fee amounts for in-State students for school years 2008-2009, 2009-2010, and 2010-2011:

Data should be provided for all four-year and two-year public IHEs. Private IHEs should not be included.

IV. Tax Increases Averted

Estimate the degree to which State tax increases were averted because of the availability of SFSF funds.

Entry from previous timeframe:

The governor would not have raised taxes in the absence of SFSF funds. The administration would have had to reassess all areas of state government and reduce positions and expenditures by approximately \$355 million, which is the amount per year of education and government services grant funding Louisiana allotted itself for Fiscal Year 2009-2010 and Fiscal Year 2010-2011 out of the SFSF grant awards.

Please update for the new timeframe:

The administration continues to take a strong position on not increasing taxes whether the stimulus is available or not.

V. Jobs Saved or Created

In its quarterly reports submitted under section 1512 of ARRA, each State provided data on, among other things, the number of jobs estimated to have been saved or created as a result of SFSF support. The Department will use the information that has been reported to determine the number of jobs that have been saved or created. For the purposes of the Initial Annual Report, the State is not required to provide any additional information on the number of jobs estimated to have been saved or created.

VI. Progress in Advancing Education Reform

A. Reducing inequities in the distribution of highly qualified teachers:

Describe the steps that the State has taken, from October 1, 2010 through September 30, 2011, to reduce inequities in the distribution of highly qualified teachers.

Entry from previous timeframe:

Since September 2010, the Department has worked to reduce the inequities in the distribution of qualified teachers through the following innovative initiatives being implemented at the state and district level. 1. The Educator Pipeline Initiative recruits, pre-screens, refers certified, highly qualified, and highly effective educators to high need districts. 2. The Louisiana School Staffing Initiative uses five key strategies in a comprehensive effort to strengthen teacher hiring and staffing practices in high need schools: (1). Direct priority applicants to target schools; (2). Train principals in effective hiring; (3). Provide personalized staffing assistance; (4). Minimize staffing barriers; (5). Increase the rigor of retention decisions. 3. The Comprehensive Performance Management System (CPMS) is being developed and is a contributing factor to the state's effort to reduce inequities in the distribution of highly qualified educators. The CPMS provides a comprehensive list of behaviors and indicators describing various levels of performance and provides a clear framework for excellence as well as tools that will measure and differentiate effectiveness among educators and provide information to guide all other Human Capital practices in accordance with Act 54 of the Louisiana Legislature.

Please update for the new timeframe:

There are no significant or material changes to the description provided in the prior period.
